GENERAL INFORMATION ABOUT UKRAINE

Ukraine is among the largest European countries.

It has outstanding agricultural potential offering quality products to our neighbours in the EU and the Middle East. The country's diversity and scale mean that in 2022, despite the very difficult circumstances since the invasion in February, Ukrainian exporters in the unoccupied and Western area have been able to continue export business by road to European countries. The exporters in this catalogue have been able to carry on business and can continue to offer reliable delivery of high-quality products.

Ukraine has long been known as an agricultural powerhouse. Its rich black earth soils, huge land area and ideal climate for the production of grain and oilseeds have made it a global leader in the export of these products. Its role for the European food sector has been reinforced by the refocus of the EU and international buyers on food security and supply chains as a result of the pandemic. The strong trend toward traceability in European countries like Germany means that shorter supply chains from near origins are much more able to meet the legal requirements now and in the future.

Ukraine is one of the largest and most fertile countries in Europe. About 70% of its territory is devoted to agriculture. Favourable climate and location and modern agricultural methods contribute to the production of a range of products of outstanding taste and quality. Every year, more and more Ukrainian fruits and berries reach new buyers from all over the world.

Ukraine is open to the world market and international partnership. In 2021, Ukraine exports of vegetable, fruit, nut food preparations to the world were US\$195.65 million (*Source: UN COMTRADE*). Their major share was traditionally formed by walnuts, frozen fruits, fresh apples and pears.

In 2020, Ukraine was in the top 5 of exporters for tomatoes, onions, frozen, dried and boiled, fresh and chilled vegetables. In 2021, sales of fresh vegetables, e.g., onions and cucumbers, were growing too, both in value and volume. In 2020-2021 market year, fresh vegetables accounted for 72.5% of Ukrainian agricultural exports to Europe. Ukraine exports vegetables to 96 countries. Export of vegetables from Ukraine was carried out by 400 exporters in the world market (*Source: IMPACT Initiatives*).

Ukraine is an important player in the global food security system. All Ukrainian production facilities have certified HACCP systems. Most producers hold GlobalG.A.P. certificates or are in the process of obtaining them. The European Union, with its very demanding quality and safety requirements, is the main importer of Ukrainian food and agricultural products, including Organic produce.

Innovation, sustainability, production to scale and best practice in processing have become the norm as the Ukrainian fruit, vegetable and nut sectors evolve.

We live in difficult times but we can assure our customers and consumers that Ukrainian exporters and logistics providers are committed to fulfilling our orders, building our reputation and staying focused on the long term relationships that are the core of the modern food industry.

AGRO TRADE LUBNY started in Ukraine in 2005. Today, the factory occupies 12 thousand sq. m and operates 24 hours a day. Our production facilities are located in an ecologically clean area – the city of Lubny, Poltava region. We export walnuts and operate in the B2B segment to supply fresh, environmentally friendly, packaged walnuts, providing the best quality, impeccable service, safety and competitive prices. For over 16 years, we have been collecting, processing and exporting walnuts; and we give the highest priority to our clients.

KEY FACTS

- We buy the best quality raw materials from ecologically clean areas of Ukraine
- We process about 5 thousand tons of walnuts per season
- At processing and sorting, we adhere to standards at each stage
- We use modern equipment and implement best practices
- Our equipment is made of food grade stainless steel meeting the highest food standards

COMPLETE WALNUT PROCESSING CHAIN

- 1 Whole nut calibration
- 2 Washing and drying
- 3 Shelling nuts
- 4 Separation of chopped nuts
- 5 Kernel calibration
- 6 Kernel drying
- 7 Packing and packaging

BIONERICA

BIONERICA is a brand of products given by nature itself. All the raw materials grow in ecological areas, and we do not affect natural processes in any way. Our team collects, processes and sells mushrooms, berries and herbs. Production facilities are located in the town of Vyzhnytsia between the fertile gardens of the Dnister River and the rich forests of the Carpathians. Due to the unique location, we fully control all stages of harvesting, processing and production.

● KEY FACTS

- The largest exporter of forest products from the west of Ukraine
- Over 2,000 tons of wild berries, mushrooms and herbs already sold in 2022
- Two production and processing sites located nearby the Carpathians
- Employment of over 300 people, cooperation with over 50 farms
- Partners in Poland, Czech Republic, Lithuania, Estonia, Austria, Germany, France, USA.

NEWTON'S APPLE CHIPS is one of the largest manufacturers of apple chips in Ukraine. Since taste is the main driver of the snack group, the company is focused on creating not only healthy but also tasty snacks. Two categories in the assortment: Classic and Sweet. Classic Apple chips are made naturally and contain no other additives (sugar free, gluten free, no fat, no preservatives, etc.). Sweet Apple Chips are glazed with caramel and made with different natural additives (spices).

KEY FACTS

- The company has its own technology of glazing apple slices with natural caramel (a registered know-how) resulting into the unique assortment: apple chips glazed with cinnamon, lavender caramel, hot chili pepper, tabasco pepper, sriracha sauce caramel, vanilla, etc.
- The production facility is new and fitted with modern equipment
- The production is certified according to the international safety standards
- Several levels of product quality control are implemented in production
- All ingredients are of natural origin
- Modern branding and eye-catching design of packaging attract the customers' attention
- The company has been working in the trading business for over 15 years – we know well how trade, logistics, and operational processes in the trade sector work

THE COMPANY OFFERS

- Classic Apple Chips containing no additives
- Sweet Apple Chips glazed with different tastes: cinnamon, lavender, cocoa, salted caramel, vanilla, tabasco pepper, chili pepper, sriracha sauce, etc.

VOLYA SAD

VOLYA SAD FARM has a geographically convenient location in the Western part of Ukraine, near the borders with the European Union. The farm is specialized in the primary production of walnuts where the core variety cultivated is the local variety PIESCHANSKI planted according to the scheme 8/8, and the auxiliary French variety FERNOR planted according to the scheme 6/8, with a total orchard area of 35 hectares. These varieties start fruiting in 6-7 years.

KEY FACTS

PESCHIANSKI walnut

- is considered the best variety not only in Ukraine, but in all countries of Eastern Europe and Central Europe to some extent
- has very thin, but durable shell
- is well-suited for mechanized operations in walnut commercial harvesting and its processing
- is a commercial variety
- can be planted according to an intensive planting scheme, namely 156 trees/ha without irrigation and 208 trees/ha with irrigation
- is expected to become the most popular variety among commercial growers in our region

Established in 2016, today the Public Association «**Association of Gardeners, Vine-growers and Winemakers of Ukraine**» («**UKRSADVINPROM**»), unites over 240 private companies producing fresh and processed fruits and berries. Our idea is to promote Ukrainian tastes all over the world by supporting our member companies in expanding export markets, introducing new production technologies and methods, attracting investment. We provide agrarians with legal support, arrange advanced professional training for gardeners and agronomists.

OUR GOALS AND OBJECTIVES

- Lobbying producers
- Certification and legal support
- Logistics support
- Organization of sales of fruits and berries produced by member companies through forming large commodity lots
- Investment attraction for modernization of existing processing and storage facilities

OUR MEMBERS are:

- Growers of fruits (apples, pears, plums) and edible nuts
- Producers of berries (strawberries, blueberries, raspberries, cherries, black currants) and grapes
- Fruits and berries processing companies
- GlobalG.A.P., ISO, HACCP certified

The **UKRAINIAN NUT ASSOCIATION (UNA)** has been at the forefront of the development and professionalisation of the country's rapidly growing edible nut sector since 2008. Its 156 members are drawn from all parts of the industry including commercial growers, processors, exporters, nurseries, and producers of inputs. UNA represents the future of the Ukrainian nut sector built on the solid foundations of the past.

There have always been good reasons to buy walnuts from Ukraine. Now there are even better reasons. UNA has championed the establishment of commercial orchards of walnuts, hazelnuts, and almonds. Already more than 12,400 hectares of high-quality commercial orchards have been established. This is increasing at a rate of more than 10% each year supported by our Programme "1 plus 1" which offers technical expertise and high-quality seedlings to commercial growers.

In 2020, the first National Programme "Orchard-Processor-Export" was launched. This programme integrates commercial walnut orchards to assemble high-quality export lots with identifiable varietal integrity and traceability. Production, process, and export are certified by internationally recognised bodies.

Looking to the future our Programme "2 plus 1" (Walnut, Hazelnut plus Almond) was launched in 2021. This promotes the cultivation of Ukrainian identified variety almonds in commercial orchards.

Whether you are interested in sourcing high-quality edible nuts, building a supply chain in Ukraine through long-term relationships, or investing in production, UNA can link you to the right people and organisations. Contact us now or better still come and see for yourself how the Ukrainian edible nut sector is developing with the support of UNA.
